

Diagram illustrating the relationships between various entities in a system, categorized by their functional areas:

- Finance:**
  - Finance::Statement**: contract\_version, deadline\_date, name, original\_value, output\_fee, payment\_date, reconcile\_amount.
  - Finance::Schedule**: identifier\_alias, name, schedule\_identifier.
  - Finance::Milestone**: declaration\_type, milestone\_date, name, payment\_date, start\_date.
  - Finance::StatementLineItem**: state.
  - Finance::ScheduleMilestone**: declaration\_type, name.
  - Finance::Duplicate**: cohort, declaration\_count, duplicate\_profile\_count, end\_date, external\_identifier, induction\_status, participant\_profile\_status, profile\_type, provider\_name, schedule\_identifier, school\_id, school\_name, school\_transfer, start\_date, teacher\_profile\_tm, training\_programme, training\_status.
  - Finance::DeletedDuplicate**: data.
- Participant Profile & Induction:**
  - ParticipantProfile**: cohort\_id, core\_induction\_programme\_id, induction\_start\_date, mentor\_profile\_id, notes, npq\_course\_id, profile\_duplicity, pupil\_premium\_uplift, request\_for\_details\_sent\_at, school\_id, school\_ukpm, school\_um, sparsity\_uplift, start\_term, status, training\_status.
  - InductionRecord**: end\_date, induction\_status, school\_transfer, start\_date, training\_status.
  - InductionProgramme**: delivery\_partner\_to\_be\_confirmed, training\_programme.
  - ECFParticipantEligibility**: active\_flags, different\_tm, exempt\_from\_induction, manually\_validated, no\_induction, previous\_induction, previous\_participation, qts, reason, status.
  - ECFParticipantValidationData**: api\_failure, date\_of\_birth, full\_name, nino, tm.
  - ProfileValidationDecision**: approved, note, validation\_step.
  - ParticipantProfileState**: reason, state.
- Core Induction & Cohort:**
  - CoreInductionProgramme**: name.
  - Cohort**: academic\_year\_start\_date, registration\_start\_date, start\_year.
  - SchoolCohort**: appropriate\_body\_unknown, estimated\_mentor\_count, estimated\_teacher\_count, induction\_programme\_choice, opt\_out\_of\_updates.
  - ParticipantIdentity**: email, external\_identifier, origin.
  - Partnership**: challenge\_deadline, challenge\_reason, challenged\_at, pending, relationship, report\_id.
  - DeliveryPartner**: discarded\_at, name.
- Lead Provider & Network:**
  - LeadProvider**: name, vat\_chargeable.
  - Network**: group\_id, group\_type, group\_type\_code, group\_uid, name, secondary\_contact\_email.
  - NPQLeadProvider**: name, vat\_chargeable.
  - School**: address\_line1, address\_line2, address\_line3, administrative\_district\_code, administrative\_district\_name, domains, name, postcode, primary\_contact\_email, school\_phase\_name, school\_phase\_type, school\_status\_code, school\_status\_name, school\_type\_code, school\_type\_name, school\_website, secondary\_contact\_email, section\_41\_approved, slug, ukpm.
  - LocalAuthority**: code, name.
  - LocalAuthorityDistrict**: code, name.
  - SchoolLocalAuthority**: end\_year, start\_year.
  - SchoolLocalAuthorityDistrict**: end\_year, start\_year.
  - DistrictSparsity**: end\_year, start\_year.
- NPQ Applications & Contracts:**
  - NPQApplications::EligibilityImport**: filename, import\_errors, processed\_at, status, updated\_records.
  - NPQApplications::Export**: end\_date, start\_date.
  - NPQContract**: monthly\_service\_fee, number\_of\_payment\_periods, output\_payment\_percentage, per\_participant, recruitment\_target, service\_fee\_installments, service\_fee\_percentage, version.
  - NPQCourse**: identifier, name.
- Other Entities:**
  - AppropriateBody**: body\_type, name.
  - AppropriateBodyProfile**: (Linked to AppropriateBody).
  - TeacherProfile**: tm.
  - ParticipantDeclaration**: course\_identifier, declaration\_date, declaration\_type, evidence\_held, pupil\_premium\_uplift, sparsity\_uplift, state.
  - ParticipantProfileSchedule**: (Linked to ParticipantProfile).
  - ParticipantBand**: max, min, output\_payment\_percentage, per\_participant, service\_fee\_percentage.
  - SchoolMentor**: remove\_from\_school\_on\_date.
  - LeadProviderCip**: (Linked to LeadProvider).
  - ProviderRelationship**: discarded\_at.
  - CallOffContract**: monthly\_service\_fee, raw, recruitment\_target, revised\_to\_get, set\_up\_fee, uplift\_amount, uplift\_target, version.
  - PupilPremium**: eligible\_pupils, pupil\_premium\_incentive, sparsity\_incentive, start\_year, total\_pupils.
  - SchoolLink**: link\_reason, link\_type, link\_um.
